CHOLINGA means purpose in Chichewa, the primary language spoken in Malawi, Africa.

Our aim is to foster a sense of PURPOSE that can prevail between creators and consumers.

We create timeless artisanal items by maintaining the tradition of handwoven techniques and infusing them with a modern approach.

“There is great honour in handcrafting artisanal pieces of timeless style that carry a lineage of skill and learning. By choosing our products, our consumers get to bring this everlasting style into their space, this starting their own story and continuing the timeless narrative.”

Debbie Nordien. Owner & Founder

Cholinga leans in to slow, steady, sustainable production and growth. We feel as responsible for our planet as we do for people, and we only create products that are gentle on the natural environment.

Purpose, empowerment and passion are the values that underpin Cholinga. We create beautiful pieces that are imbued with both sentiment and skill.

Damaged Products:

Please check your items thoroughly prior to signing for them. If the items are not in perfect condition, please do not accept them and contact us immediately. Once items have been signed for, we will not accept any claims for the product being damaged in any way and will not be held responsible for any loss or damage whatsoever.

The Product:

This product is 100% handmade from natural materials, and may have some flaws, as in colour mix, visible connectors and size variations. With regards to the wood, no two wood items will ever be the same due to grain verification and some pieces may have more knots than others. This is what helps make your custom-made piece authentic. As wood is still living up to 4 years, movement can occur. We supply high quality furniture grade wood. This may vary for grain, colour, knots and other markings. We do our best to select and match as appropriate, but we cannot accept returns based on natural variations. We purchase and supply wood that has been dried to correct moisture content but sometimes warpage and shrinkage can occur, especially when the product is shipped to drier or more humid climates from where it was made. We cannot accept returns that stem from climactic differences. Should movement occur in the wood, addressing issues of temperature and moisture usually resolves the issue.

Care Instructions:

Care Instructions: Items are not recommended for outside use. Wipe down products with a damp cloth. Please note for pieces made in SA Pine, that this wood type is a soft wood that can easily dent or scratch if not looked after correctly.

Safety:

Cholinga takes no responsibility for any injury/injuries to any person/persons that may involve an item of their furniture.

Thank you for reading through and understanding our terms and conditions. We trust that you agree with all the information therein. If you have any queries, please don't hesitate to [contact us](#)
